

MEDICAL WEIGHT LOSS PROGRAM

Personalized Medical Weight Management

LOSE WEIGHT. RESTORE HEALTH. REGAIN CONFIDENCE.

IS IT TIME TO TAKE CONTROL OF YOUR HEALTH?

You may benefit from a medical weight loss evaluation if you struggle with:

WIEGHT MANAGEMENT

- ✓ Difficulty losing weight
- ✓ Weight regain after dieting
- ✓ Increased belly fat
- ✓ Slow metabolism
- ✓ Food cravings

ENERGY & WELLNESS

- ✓ Fatigue or low energy
- ✓ Brain fog
- ✓ Poor motivation
- ✓ Low exercise tolerance
- ✓ Poor sleep

METABOLIC HEALTH

- ✓ Prediabetes or insulin resistance
- ✓ High blood pressure
- ✓ Elevated cholesterol
- ✓ Hormone imbalance
- ✓ Emotional eating

Our goal is to identify the root cause of weight gain while providing personalized medical treatment to help you achieve lasting success—not temporary results.

1 INITIAL WEIGHT LOSS EVALUATION

\$100

INCLUDES:

- ✓ Comprehensive medical history
- ✓ Weight loss & lifestyle assessment
- ✓ Review of previous weight loss attempts
- ✓ Personalized treatment recommendations
- ✓ Discussion of medication options
- ✓ Nutrition & exercise guidance
- ✓ Prescription recommendations (when medically appropriate)

Misty Ford, FNP-C

Written personalized treatment plan provided.

OUR PHILOSOPHY

At Peptides, Weight Loss & Wellness, we believe successful weight loss is about improving your overall health—not simply lowering the number on the scale. Our mission is to identify the underlying causes of weight gain while providing personalized, evidence-based care that helps you lose weight, increase energy, improve metabolic health, and maintain lasting results.

You deserve to feel like yourself again.
